IT'S HOW WE PLAY TOGETHER

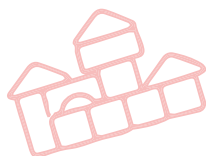

CLASSIC

The 3D animals and creations enhance the look and feel of a facility and also create a greater sense of adventure to feed children's imagination and make play even more fun.

Children will love to fly to the clouds on the back of the Honeybee or fight off evil astride the Spider. They can balance on the legs of the Octopus or have a rest on the belly of a Bear.

The size of the animals creates a three dimensional environment where they can be played on top of, at the side of or all around. They can be conquered or used to hide behind.
