

Product Overview

Ropes Courses

A monumental play experience
filled with limitless possibilities.

dynamoplaygrounds.com

Limitless Possibilities & Hours of Endless Fun

- Gives users "**free reign**" to play as they see fit
- Challenges children to create their own **worlds of adventure**
- Encourages **limitless amusement**
- Challenges the **mental & motor skills** of users
- **Fully transparent** allowing parents & guardians see their children at all times
- Options for **children from 5-12**
- **Accessible** options available
- **Customizable**

Innovative creations of free-form, multi-plane net climbers that have limitless possibilities for hours of amusement.

Our Ropes Courses offer a monumental play experience filled with limitless possibilities and hours of amusement.

Unlike traditional playgrounds with defined play movement, these games twist, turn, rise, and fall in complex connected paths.

Thanks to the industry-leading materials we use, our games experience less damage, vandalism, and general wear and tear.

Ropes Courses

Limitless possibilities for hours

Frequently Asked Questions

Get to know our Ropes Courses by reading some of our most commonly asked questions.

How can I customize my ropes course?

We can customize your ropes course with these accessories:

- Slides
- Panels
- Handholds
- Pendulum Steppers
- Spinners
- Rope Bridges
- Mats

Other accessories in mind? We'll work with our design team to see how to bring that concept to reality.

Do you have options for younger children?

Though these games focus on the 5-12 age group, we have many other games that appeal to younger children, allowing them to get acquainted with rope play and climbing skills!

What solutions do you offer for fraying rope?

Our ropes have either a stainless or galvanized steel interior, which means that if fraying happens on the exterior rope, the interior will not be damaged. We offer quick fixes. Our aluminum vandalism repair sleeves allow for rope damage to be quickly covered, keeping your game operational.

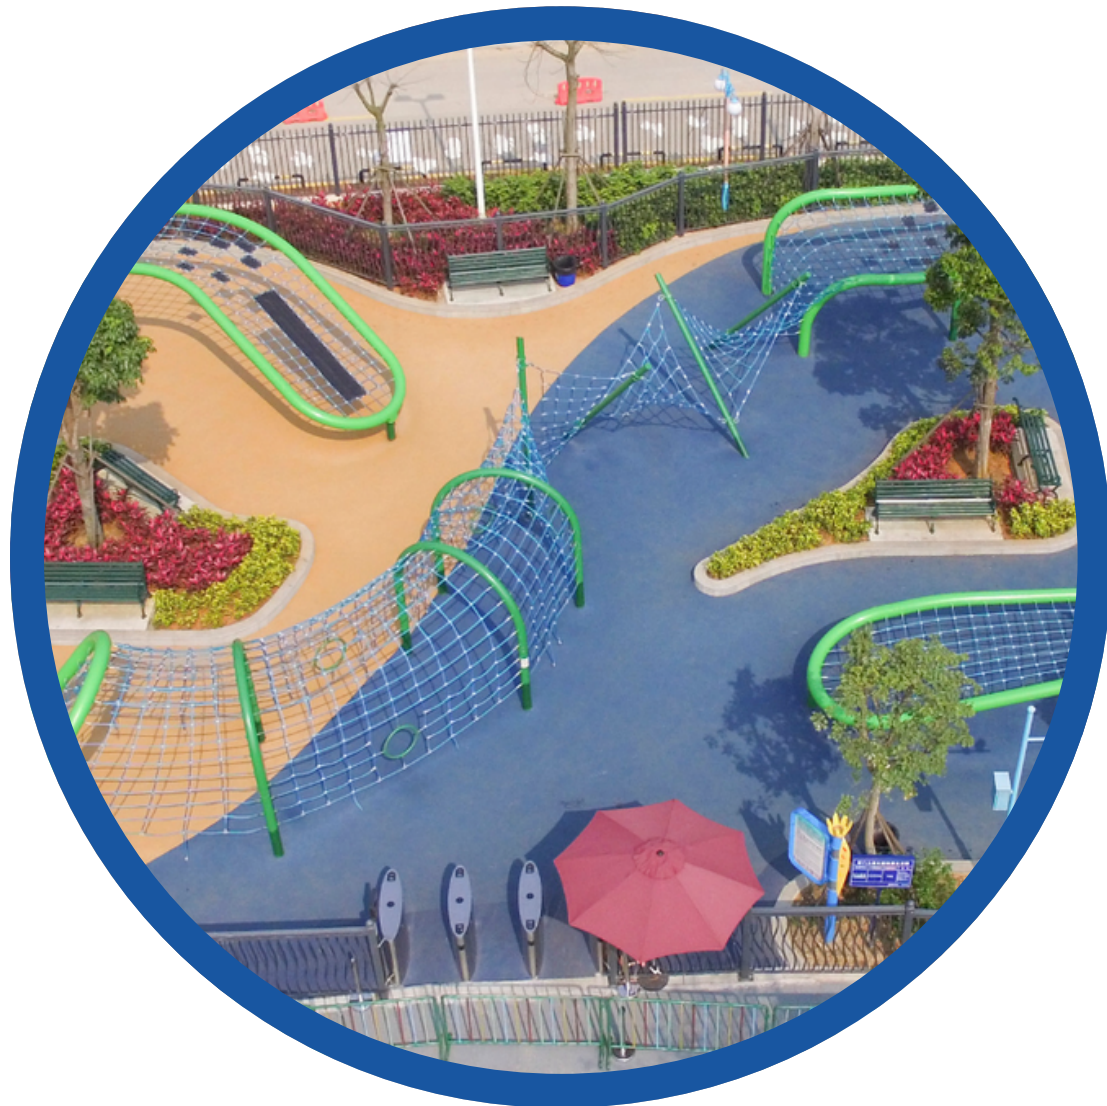

What if I want a smaller version of a Ropes Course?

Dynamo has an exciting, dynamic range of Ropes Courses. Based on your space requirements and the accessories wanted, we have an option perfect for your project. Looking to make your Ropes Course a bit more unique? We have an in-house design team, ready to work with you to customize a game for your community!

How long does it take to build?

Depending on the size of the Ropes Course, production can take anywhere between 20- 24 weeks. If your game has more customizable features, it will take longer to produce.

Do you provide CAD files?

Absolutely! While working with you and your team, we will provide you with the tools and resources needed to ensure the game works within your space requirements.

Can I choose the colors?

Dynamo offers a range of color choices for ropes and posts. We can work with your theme and color scheme to bring your vision to life! See our Color Choice Guide for more details.

Looking for specific colors for your posts? Provide us with an RAL number and we will aim to match your color at an extra charge.

What about maintenance?

Our games are designed with sustainability in mind. They are relatively low maintenance and designed to be durable and long-lasting. Each game will have a set of instructions for best practices of maintenance, and Dynamo offers a comprehensive program for game parts to ensure children can get as much play out of each of our games as possible.

And, accessibility?

We can create layered play, allowing wheelchair bound users to play beneath the netting, pulling themselves along using the pendulum steppers or coconut rope!

In addition, for children with cognitive disabilities, the bouncing and swaying sensation offered by rope-based games offers vestibular stimulation.
